

Tadra Weddings is Tadra's most recent endeavour that started back in the late 1990's. While providing the country's leading hotels and resorts with their wedding flower requirements, Tadra became an integral part of guests' weddings – from planning and organising rehearsal dinners, to sourcing local wedding favours, handling guest lists, coordinating the ceremony, reception set ups and liaising with vendors on behalf of the bride and groom.

It was something that they enjoyed and have since developed as a specialty department of their Company.

Tadra's real expertise has been expanded in the complete planning and production of customised weddings.

Tadra's **Wedding Collection** offers a select range of options but Tadra encourages custom design so that couples are able to create their own unique and personal wedding.

Planning from beginning to end – Tadra ensures that your wedding is exactly how you dreamed it to be, - without the stress on you or your family! - From the engagement ring to the throwing of the
